

M3 Salesforce ATP Work Instructions Version 1: Release September 2nd, 2025

M3 Go Live September 2nd, 2025

ATP (Available to Promise) integration between Salesforce and M3 ERP System is now LIVE! Follow instructions below to utilize ATP Button in Salesforce during quoting, customer price list, inventory, and lead time return on new and existing opportunities. This is meant to be used as a tool in the quoting process to validate the price and lead time for customers and make more efficient use of Commercial Team Member time during quoting.

Issues or Areas for Improvement?

- Send errors or failures to Emma Halpin for prioritization and triage within M3 hyper care period (End September 12th, 2025).
- Send opportunities for improvement to Lee Adams for prioritization and integration.

New Opportunity:

1) Create Opportunity

- Ensure that the Target ERP is FMC ASRaymond US (M3_Division_88). You can select this when creating the opportunity or after it has been created by scrolling to the “Quote Information” Tab and verifying/modifying to FMC ASRaymond US (M3_Division_88)

The screenshot shows the BARNES Salesforce interface. At the top, there's a search bar and navigation tabs: Home, Contacts, Accounts, Leads, Opportunities, Quotes, and Cases. The 'Opportunities' tab is selected. Below the navigation bar, there's a section for 'Opportunity: Go Live - Sico Inc [Quote: Undefined] 2025-09-01 -...'. There are buttons for '+ Follow', 'New Quote', 'New Case', 'Log a Call', 'New Event', and 'New 1'. The 'Quote Information' tab is active, showing fields for 'Target ERP' (FMC ASRaymond US (M3_Division_88)), 'Price Book' (FMC Industrial US (M3_Division_88)), 'Quotes on Opportunity' (0), and 'Synced Quote' (Last Synced Quote Number, Last Synced Quote Expiration Date, Manual Quote Number).

The screenshot shows the 'Quote Information' dropdown menu. The 'Target ERP' field is highlighted, and a list of options is displayed. The options are: (Company_57), FMC ASRaymond Spain (Company_94), FMC ASRaymond UK (Company_35), FMC ASRaymond US (Company_88), FMC ASRaymond US (M3_Division_88), FMC General Company (No FRP Relation), and FMC KIS Ltd UK (Company_0218). The 'FMC ASRaymond US (M3_Division_88)' option is selected. The dropdown menu also shows 'Product Segment' (None), 'Product Type' (None), and 'Product Launch' (None). At the bottom, there are buttons for 'Cancel', 'Save & New', and 'Save'.

2) Create New Quote

- Follow standard new quoting process for set up
- When prompted for Target ERP, select **FMC ASRaymond US (Company_88)**

New Quote

Target ERP (Mandatory)

* Target ERP (Price Book will be reflected in the next screen)

FMC ASRaymond US (Company_88)

--None--

FMC ASRaymond France (Company_55)

FMC ASRaymond Germany (Company_97)

FMC ASRaymond Mexico (Company_84)

FMC ASRaymond Singapore (Company_57)

FMC ASRaymond Spain (Company_94)

FMC ASRaymond UK (Company_35)

FMC ASRaymond US (Company_88)

FMC ASRaymond US (M3_Division_88)

FMC General Company (No ERP Relation)

FMC IGS Ltd UK (Company_0218)

FMC NGP Brecksville (Company_76)

FMC NGP Canada (Company_27)

New Quote

FMC ASRaymond US (M3_Division_88)

The Target ERP determines what 'Price Book' will be set to gain access to the correct products.

ERP Reference (Optional)

ERP Reference to Use

Raymond US (M3) Account Number: 10317

Note! This list will show all available ERP references on the account, with an attempt of automatic matching done by the CRM. Your choice should match your 'Target ERP' and if picked will pull ERP-information like 'Payment' & 'Delivery' terms to the quote. If no choice is made the flow will try to pull data from the account. Data can be altered later in the process.

If you can't find your ERP in the list and you know the account exists on the ERP side. Head back to the account to use the 'Request ERP Reference' functionality on the 'ERP reference' related list to try to generate your reference before initiating the quote creation again

Quantity: 10.00

Price: USD 0.000

b. Verify that ERP References are **ASRaymond US (M3_Division_88)**

Price & ATP Call

Integration Information

This integration aims at calling for sales price and ATP (Available to Promise) to get lead time(s) for the quote line items of the quote. It is in development and does not support all ERPs. Please read more about the concept of ATP (Available to Promise) in the section on the bottom.

Target ERP: **FMC ASRaymond US (M3_Division_88)** | Target Account Number: **10317**

Currently supported ERPs: **FMC Maumee (M3 Division 88)**

5) ATP Call Options

a. Choose one of 3 options

- i. Account ERP Reference: ensure **Raymond US | M3** is selected. This call will reference the salesforce account number to the M3 account number on record.

- 1. M3 Customer Account Numbers are not JBA Customer Account Numbers. Ensure that you are checking that the account reflects the M3 Customer Account Number.

Option 1 | Use an Account ERP Reference Record

☒ ERP Reference

Raymond US | M3

Pick a Salesforce ERP-reference related to the account to target the correct ERP account for sales price calculation.

- ii. Use an ERP Pricelist: Only Catalog Pricing Available, only use when customer is not already on pricelist

Option 2 | Use an ERP Price List

Price List

--None--

Catalog Price List

Pick a price list to target a standard calculated sales price from the ERP.

- iii. Use Direct Account Reference: Manually enter M3 Customer Account Number

Option 3 | Use a Direct Account Reference

☒ Account Number

10317

Sequence

- b. Click Proceed & Verify that Target ERP (Price Book) is **FMC Industrial (M3_Division_88)** and that the account number is correct

Price & ATP Call

When you proceed the following reference will be used to call for price and possible stock level (available to promise):

Target ERP (Pricebook): **FMC Industrial US (M3_Division_88)**

Account Number: **10317**

Remember that the integration call can take a bit of time. Please be patient when the system is retrieving pricing and/or stock levels (ATP).

Previous Proceed

- i. Some Accounts may also include “Full Account Number” in the format ##_910088_#####, last 5 digits being the M3 Customer Account Number.
- c. Click **Finish**
- d. Review ATP Call, validate Targeted ERP is selected as **M3, Maumee** and that Account reference is correct.
- e. Utilize Sales Price, Total Price, ATP (Available to Promise Inventory), and Lead Time to confirm quote to customer.
 - i. All items with 0 pieces in inventory show an ATP qty of 1,000,000,000 pieces, if you see this value assume there are 0 in inventory but we can provide a quote for as many as the customer wants quoted.

Price & ATP Call

ERP data integration finished. Please validate the results below!

Quote Name: **Go Live - Sico Inc [Quote: 00048068] 2025-09-01 - FMC Quote** | Number of Line Items: **1**
 Targeted ERP: **M3, Maumee** | ERP account reference used: **10317**
